

Expose Matte Roll-up Film Blockout 260µ

Expose Matte Roll-up Film Blockout 260µ is a multilayer polyester/polypropylene film designed for the production of high quality roll-up displays, window shades and POS displays. The matte imaging surface reduces unwanted reflections and provides improved colour density. Excellent flatness, fade resistance, good light blocking and the white, anti-reflective coating make this a successful product.

Compatibility overview

Compatible with (Eco)Solvent, Latex, and UV-cure inks.

Water
based

(Eco)
solvent

Latex

UV-cure

Physical characteristics

- Base material: Polypropylene/Polyester
- Surface: Matte
- Weight: 225g/m²
- Thickness: 260µ

Product code	Product size	Core diameter
814870-914	914mm x 30m	3 inch

Custom sizes are available with minimum order quantities required

Features

- Excellent flatness
- Anti-reflective
- Good lamination characteristics
- Short dry-time
- Perfect light blocking
- Water resistance
- Cost effective solution for high quality display systems

Applications

- Posters
- Roll-up displays
- POS displays
- Window shades
- Hanging banner

Shelf life and environment aspects

The shelf life of this media is 1 year under normal conditions (10°C – 30°C at a relative humidity 35% - 65%). Higher humidity and/or temperature can affect the product performance. Always store the media in a dark place in its original packaging.
