Heat Transfer Paper

HEAT TRANSFER PAPERS

For commercial use

NEENAH HEAT TRANSFER PAPERS

For transfer to all fabrics, mousepads, coasters, puzzles, leather, binders, scrapbook covers, art papers, wood and stone goods.

Neenah has been an industry leader in the creation, development and improvement of heat transfer products since our first patent was granted in 1980.

In fact, we are the only company to control the entire manufacturing process from "Tree to T"! Our history includes the earliest thermal and laser products in the mid-1980s, followed by inkjet, laser and other digitally printable products, dark fabric and self-weeding transfer products and a continuing pipeline of advancements due to our large and diverse R&D team.

Producing and selling decorated T-shirts and memorabilia is a profitable business with a low cost of entry and easy production. With over 62% of Americans owning more than 10 decorated T-shirts, there are endless opportunities to succeed in this market. T-shirts, sweatshirts, canvas bags and hats are used to promote businesses, events, schools, teams, churches and other organizations.

T-shirts and hats are collected and worn again and again, with many owners reluctant to part with a favourite. The wearing audience is a large cross section of the population; t'weeners, boomers and even babies sport messages or images on their clothing.

Produced with
TECHNI-PRINT EZP®

Using Neenah's Heat Transfer products will ensure:

- Excellent quality with good colour reproduction.
- Hand and aesthetics that rival screen printing and Direct-To-Garment printing.
- Low cost of entry.
- Durable art and messages that will withstand many wash cycles.
- Ability to print on a wide range of substrates including; cotton, cotton blends, synthetics, denim, leather, mugs, hats, wood acrylics and glass substrates, among many others.

LASER Heat Transfer Paper

IMAGE CLIP® Brands

For transfer to all fabrics, mousepads, coasters, puzzles, leather and other goods.

IMAGE CLIP® Laser Light & Laser Dark

IMAGE CLIP® Laser Light (9770P0) & Laser Dark (9849P0) Heat Transfer Papers are designed for the heat transfer of full colour images with fuser oil or oil-less laser colour copiers or colour laser printers to light, white, dark or black fabrics. There is no need to trim the paper. IMAGE CLIP® Transfer Papers are self-weeding and leave no background plastic polymer yet produces a soft, pliable and highly durable product.

IMAGE CLIP® Konzert-Ts Transfer Paper

IMAGE CLIP® Konzert-Ts Transfer Paper (9847P0) is designed for the heat transfer of a white image to pastel, dark, and bright coloured items with fuser oil or oil-less copiers or colour laser printers. There is no need to trim the paper. Like our other IMAGE CLIP® Transfer Papers, Konzert-Ts is self-weeding and leaves no background plastic polymer yet produces a soft, pliable and highly durable product.

IMAGE CLIP® Laser Light

Produced with
IMAGE CLIP® Laser Dark

LASER 1 OPAQUE®

For transfer to all **DARK** fabrics, mousepads, coasters, puzzles, leather and other goods.

LASER 1 OPAQUE® Heat Transfer Paper is easy to use for transferring laser photo-quality images or other graphics to dark coloured materials, offering a soft, supple transferred image that is vibrant and durable – and will withstand many laundry cycles, regardless of the model of laser printer or copier.

TECHNI-PRINT® EZP

For transfer to all **WHITE** and **LIGHT COLOURED** fabrics, mousepads, coasters, puzzles and leather goods.

TECHNI-PRINT® EZP Heat Transfer Paper is for transferring photos and graphics to white and light coloured fabrics, is easy to use yet gives crisp vibrant images regardless of the model of the laser printer or copier. Also Indigo® certified for the 7000 – 1000 series of printers.

TECHNI-PRINT® HS

TECHNI-PRINT® HS is a laser printable sheet that can be used to transfer an image to almost any **HARD** surface.

TECHNI-PRINT® HS Heat Transfer Paper can be run on oil or oil-less laser printers and copiers. Please review and consider the instructions as a “starting point” given the wide range of materials that are compatible with TECHNI-PRINT® HS Paper.

INKJET Heat Transfer Paper

JET-PRO® SS & 3G JET OPAQUE®

For transfer to all fabrics, mousepads, coasters, puzzles, leather and other goods.

JET PRO® SS Heat Transfer Paper

JET PRO® SS Heat Transfer Paper is printable by most desktop and roll fed inkjet printers and is very easy to use, providing a soft, supple transferred image on white and light coloured fabrics that is vibrant and durable – and will withstand many laundry cycles.

A REVOLUTION IN SCREEN PRINTING

EXOSTENCIL® Screen Prep Paper

EXOSTENCIL® Screen Prep Paper is a revolutionary, environmentally friendly, "Chemical Free" way to make and reclaim screens. This simple, two step process eliminates the need for big investments, allowing you to get into production in just minutes. This process for manufacturing screens is appropriate for mesh counts from 85 – 230.

Equipment Needs: Laser Printer (We recommend the OKI® C831TS) and a Heat Press with A3 (11" x 17") platen.

Screens can be prepared in 10 minutes,
with no exposure time

No chemicals needed

Produced with
EXOSTENCIL®
