

Product description

DM Ferro Base Film 500 μ is a permanent self-adhesive film used to make a non-ferrous wall suitable for easy-to-replace magnetic graphics. It can be applied to flat, curved and cylindrical surfaces.

Shelf life and environment aspects

The shelf life of this media is 1 year under normal conditions (10°C – 35°C at a relative humidity 30% - 75%). Higher humidity and/or temperature can affect the product performance. Always store the media in a dark place in its original packaging.

Important:

Before using the media the user must examine the suitability of the media for each application. We shall not assume liability for non-performance of the media. Specifications are subject to change without notice.

Physical characteristics

Surface: Brown, not for printing
Base material: Flexible ferrous base
Adhesive: Permanent

Thickness: 500 μ
Weight: 2075 g/m²

Holding strength: 100-105 g/m²
Guaranteed holding strength: \geq 100 g/m²

Features

Highly flexible base to create ferrous surfaces
Permanent self-adhesive layer
Easy to install
Indoor and static outdoor use

Applications

Retail advertising
Trade show graphics
Interior decoration
Wall graphics
