

Product description

DM Ferro Glossy Whiteboard Film 300 μ is a flexible and light weight ferrous film with a patented dry-erase surface treatment and a ferrous anti-rust back coating that adheres to magnetic surfaces. It can be used again and again, simply write on it with a dry-erase marker and wipe it off. Magnetic accessories, prints and markers can also be attached to it, making it a truly universal product for use at home, school, restaurants, retail stores and offices.

This Whiteboard film meets the demand for changeable graphics, as you can easily transform walls into creative spaces that encourage collaboration, stimulate creativity and boost productivity. A great solution for any office or teaching environment.

Shelf life and environment aspects

The shelf life of this media is 1 year under normal conditions (10°C – 35°C at a relative humidity 30% - 75%). Higher humidity and/or temperature can affect the product performance. Always store the media in a dark place in its original packaging.

Important:

Before using the media the user must examine the suitability of the media for each application. We shall not assume liability for non-performance of the media. Specifications are subject to change without notice.

Physical characteristics

Surface: Glossy dry-erase
Base material: Flexible ferrous film
