

# Tack Mount One-Way Vision Film Polymeric 40

window films

## Product description \

**Tack Mount OWV Polymeric 40** is a white 160 $\mu$  polymeric perforated exterior window film with a removable solvent-based adhesive. 40% of the film has been perforated, leaving 60% of the vinyl for ink reception. The combination of 1.5mm hole diameter and the 60/40 perforation ratio makes it the ideal film for advertisers, as there is more vinyl than holes. The adhesive side is black, so when you apply the film to the surface it will create the effect of one-way vision.

## Physical characteristics \

Base material : Polymeric vinyl  
Liner: Punched liner with double PE coating  
Thickness film : 160 mic  
Perforation ratio : 40% perforated / 60% vinyl  
Hole diameter: 1.5 mm  
Adhesive side: Black

## Print compatibility \

Eco-Solvent, Latex, UV-cure

## Features \

One-Way vision  
Bubble-free installation  
Does not leave any residue behind after removal  
Opaque  
2 year outdoor durability

## Product applications \

External window graphics  
Vehicle graphics  
Airport terminals

## Shelf-life \

The shelf life of this media is 1 year under normal conditions (10°C – 35°C at a relative humidity 30% – 75%). Higher humidity and/or temperature can affect the product performance. Always store the media in a dark place in its original packaging.

**Always read the application instructions carefully before applying the media.**
