

Product description

Taylor SA Tex Blockout 170g is a PVC-free, woven self-adhesive fabric made from 100% polyester and featuring an integrated blockout layer. The specially developed low-tack removable adhesive allows graphics to be repositioned and removed without leaving residue or damaging the application surface. The material complies with the EN 13501-1 fire classification standard, making it suitable for wall decoration applications.

Product characteristics

Properties	Test method	Unit	Value	Unit	Value
Total weight	ISO 536	g/m ²	280 ± 10	oz. l/y	± 10
Fabric weight	ISO 536	g/m ²	170 ± 5	oz. l/y	± 7.5
Liner weight	ISO 536	g/m ²	110 ± 5	oz. l/y	± 4
Total thickness	ISO 534	µm	330 ± 20		
Fabric thickness	ISO 534	µm	190 ± 10		
Liner thickness	ISO 534	µm	145 ± 10		
Opacity	ISO 2471	%	> 97		
Peel strength	ASTM D330	n/25mm	4.9N/25mm		

Product features

Print technology

Eco-Solvent, Latex, UVgel, UV-curable

Manual loading and the use of edge holders is recommended to prevent head strikes

Adhesive

Removable, clear waterbased acrylic

Liner

Siliconized paper

Colourfastness (prior to printing)

6 out of 8, in accordance with ISO 105 B02

(1 = very poor, 8 = excellent)

Washability

Extra washable, in accordance with EN259-2 / EN12956

Fire retardancy

Reaction-to-fire: B - s1, do in accordance with EN13501-1:2018

Sustainability

Free of PVC

REACH compliant

CE-marking in accordance with EN15102:2019

Shelf-life and storage conditions

The shelf life of this media is 1 year under normal conditions (10°C – 35°C at a relative humidity 30% - 75%).

Higher humidity and/or temperature can affect the product performance.

Always store the media in a dark place in its original packaging.

Application

It is recommended to read our support document carefully before using the product.

Important: Before using the media the user must examine the suitability of the media for each application.

We shall not assume liability for non-performance of the media. Specifications are subject to change without notice.
